

ROBYN GIBSON

robysntank@k-state.edu

EDUCATION

Masters of Interior Architecture and Product Design Kansas State University May 2016

Environmental & Architectural Design Studios University of Missouri May 2013

Associate of Arts Cowley Community College May 2005

ACADEMIC EXPERIENCE

Instructor Kansas State University

August 2016 - Present

Contributing to the education of APD Design students through required studio and technical courses in Environmental Design, Interior Architecture and Product Design, collaborating with college faculty to optimize coordinated studio instruction and creating instructional framework with specific learning objectives for independently taught courses.

COURSES TAUGHT

Fall 2016

Environmental Design Studio 1

Interior Architecture and Product Design Studio 1

Spring 2017

Environmental Design Studio 2

Introduction to Product Design

Introduction to Digital Applications

ADDITIONAL EXPERIENCE

Designer Horizon Design + Woodworking

May 2016 - July 2016 Manhattan KS

Provided design and fabrication services for residential and commercial clients through direct client communication, development of fabrication drawings, as well as processing, fabricating, and finishing of solid and engineered wood products including custom cabinetry and furniture.

Interiors Intern Hollis + Miller Architects

May 2015 - July 2015 Overland Park KS

Assisted Architects, designers, and consultants on nineteen projects at various stages in the design process by creating materials for client presentations and project documents as well as supervising installation of FFE.

Graduate Teaching Assistant Structural Systems in Architecture I

Spring 2016 Kansas State University

Supported the successful education of Interior Architecture and Product Design students in the physics and methods of developing architectural structural systems through group and individual instruction with greatly improved learning and performance outcomes over the course of the semester.

Graduate Teaching Assistant Digital Applications

Fall 2014 Kansas State University

Educated students in the use of various software, including Rhinoceros and Sketchup, through in-class instruction and one-on-one assistance while providing regular evaluation and feedback on project progression and assignment submissions. Additionally, supported faculty research endeavors and tenure application.
