Did you catch this announcement?

There is now a widget in K-State Connect that makes it easy for K-Staters to see their printing balance, cat cash balance and number of meals remaining on a meal plan: <https://blogs.k-state.edu/it-news/2016/10/17/easily-access-some-of-your-k-state-balances/>

The widget has a handy link for adding money to cat cash, a convenience when you need more funds for printing in Weigel on either the black and white or color printer.

#### Have a Seat!

Yes, Weigel has a variety of seating options and you're always welcome to take advantage of those seats. But this time Have a Seat is the title of the newest display in the library. It focuses on 4 furniture designers: Gio Ponti, Vico Magistretti, Michael Thonet and Arne Jacobsen. A fun fact is that furniture design doesn't have to be the sole focus of one's creativity and design thoughts - Ponti, Jacobsen and Magistretti were all practicing architects who also designed furniture.

#### The Library and Your Research: Graduate Workshop Series

Discover Primary Sources at K-State Libraries

Applications are now available for students to apply to be a representative for their department for the Dean's Student Advisory Council! The application is open to any student in the College of Architecture, Planning and Design, and applicants should be willing to be a voice for their specific department. The time commitment is a minimum, and it is a great way to become more involved in the college, while voicing your ideas to the entire college and administration. ### MOA ARCHITECTURE: SCHOLARSHIP AWARD + SUMMER INTERNSHIP PROGRAM

MOA ARCHITECTURE (MOA) would like to make you aware of a scholarship and learning experience opportunity we hope you can share with your students. We offer an annual merit based private scholarship award + paid summer internship (plus paid travel and living expense reimbursement) to students in accredited architectural programs. Total value to the students is typically in excess of \$12,000.

It is our intent that this Scholarship Award + Internship opportunity rewards and challenges students with practical experience in concert with the individual's educational experience, and further stimulates their passion and interest in a career in architecture. The summer of 2017 will be the 10th year of our program, and it has proven to be a rewarding experience for the students and MOA.

For summer 2017, we offer the Robert L. Outland Women and Minority Scholarship + Internship. Named in honor of our founding principal and an Oklahoma Choctaw Native American, this award was established to recognize and reward entering fifth year, or graduate level women and minority students in an accredited architectural program (who will be returning to school in Fall 2017 following the internship). This

Scholarship + Internship is specifically intended for students who demonstrate their passion for architecture, high academic achievement and design ability.

We have chosen to limit opportunity on an every-other year basis (odd numbered years) specifically for those under-represented in the profession - women and minority students through the Robert L. Outland Scholarship. In alternating even numbered years (next opportunity summer 2018) we offer the Kiyoshi Murata Scholarship + Internship, which is open to all students.

Submittals are due in January 2017, so we ask that you share this opportunity for the summer of 2017 with your students during this fall term and invite them to visit our Scholarship + Internship page <http://moaarch.com/scholarship/> where they can learn more about MOA ARCHITECTURE, this opportunity and the application/submission requirements.

To help make communication of the opportunity as easy as possible, you can simply forward this e-mail to your architectural students. I am also including in this e-mail a link to an informational flyer so that you will be able to download and e-mail it to your architecture students or print and post the flyer.

<http://moaarch.com/moawp/wp-content/uploads/2016/10/2017-Scholarship-Application-flyer.pdf>

Please contact me if you have any questions or require additional information. We look forward to receiving submittals from your students.
