### Weigel Library - Third Floor Tidbits

#### Weigel Library Updates

Photoshoot volunteers needed!!

On Thursday morning, October 19, 8:30 am to 10:00 am, Hale has scheduled a photoshoot in Weigel for the K-State Libraries' magazine. A minimum of ten students are needed for this photoshoot. The best scenario would be to have students from all four College of APDesign disciplines represented.

The students participating "should wear what they would normally wear to class, but obviously they should look nice (i.e. no sweatpants). Solids are better than patterns and red is not a good choice. They should also bring their backpacks with school items like books, notepads, laptops, etc."

If you want to represent APDesign and Weigel Library in the K-State Libraries' magazine, please contact Maxine (532-5978, [mlganske@ksu.edu](mailto:mlganske@ksu.edu), 0081 Regnier Hall) prior to 5 pm Tuesday, October 17. Thanks for helping.

display of Nelson-Atkins Museum of Art resources for the annual ENVD 201 field trip barely got up before the buses were loaded and headed east. We'll leave that display up a few more days in case so you want to read more about it.

2) The College of APDesign has many faculty and staff who have authored and/or edited publications in their areas of expertise. Many of these publications are on display in Weigel.

3) Internship and Education Abroad exhibits of the Weigel Library student assistants - from Copenhagen to Italy to Dessau and from LA to KC to Denver.

**Tools for Trade - Oct 24 | 11:30a.m. - 1:30 p.m.**

"Tools for Trade" is an opportunity for upper-level APDesign students to sell their design tools and supplies to ENVD students. The Environmental Design Student Association event will take place one day only on Tuesday, October 24th from 11:30 a.m. to 1:30 p.m. outside of Regnier Forum (S1117). All transactions will occur in cash only and directly from buyer to seller. Please bring change.

### WHERE WE WANT TO LIVE:

Reclaiming Infrastructure for a New Generation of Cities

Ryan Gravel is an urban planner, designer, and author working on infrastructure, concept development, and policy as the founder of Sixpitch. His master's thesis launched the Atlanta Beltline, which through fifteen years of progress, is now changing both the physical form of his city and the decisions people make about living there. Alongside other projects at Sixpitch and research on similar "catalyst infrastructure" projects around the world, Ryan's book, "Where We Want to Live," (St. Martin's Press, 2016), investigates this cultural side of infrastructure, describing how its intimate relationship with our way of life can illuminate a brighter path forward for cities.
